## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. **Claims 1-15** are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over **claims 1, 2, 6, 7, 10, and 11** of copending Application No. U.S. 2003/0193404 A1. Although the conflicting claims are not identical, they are not patentably distinct from each other because: Both applications claim a control apparatus comprising first, second, and third control devices for communicating with each other to control at least one of a system, equipment, device, component, or appliance. Further, each limitation of the instant application can be found in the corresponding claims of the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Art Unit: 2636

3. **Claims 16-20** are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over **claims 1, 2, 6, 7, 10, and 11** of copending Application No. U.S. 2003/0193404 A1 in view of U.S. Patent No. 6,542,076. **Claims 140, 143, 199, and 201** of the commonly owned patent reasonably appear to teach the limitations of dependent claims 16-20.

This is a provisional obviousness-type double patenting rejection.
